

SAPREF Policy Statement

SAPREF's purpose is to operate our Terminal facilities to supply liquid fuels to our shareholders' South African markets. We have a comprehensive set of commitments, policies and standards that define how we aim to operate in a socially and environmentally responsible way.

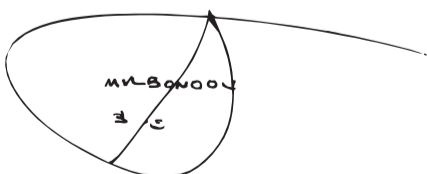

As members of Team SAPREF, **we strive to be South Africa's Terminal Operator of choice for liquid fuels.**

In honouring this we:

- Operate safely and responsibly with no harm to people, neighbours and the environment.
- Strive to improve our supply chain performance, reliability and availability of our Terminal Operations.
- Are accepted in the community as an environmentally responsible neighbour, making a valued contribution to society.
- Align our activities, set targets, review and report progress to all our Shareholders.
- Commit to Continual Improvement and its measurement by appropriate performance indicators.
- Provide safe storage and handling of shareholder products that meet agreed specifications, and statutory requirements.
- Provide adequate and appropriate resources to implement the Site Policy, the Business Management System and to review its continuing suitability and effectiveness.
- Provide all stakeholders' access to this Site Policy Statement and for staff to familiarise themselves and adhere to the associated policies and procedures.

The SAPREF rules and regulations stipulate the basic requirements for working safely at SAPREF. It is mandatory for every person to comply with these rules and regulations.

This Policy Statement has been endorsed by the SAPREF Leadership Team on behalf of Team SAPREF.

Dr Bongani Mvelase
General Manager
